We believe in

- encouraging future generations of bright young people into the extractives industry
- promoting education in applied geology, mining, mineral processing and history
- raising public awareness of the value and contribution of minerals to society and the environment

...lies Ecton Mine

230 years ago, Ecton Hill

- contained the deepest mine in England
- used the very latest steam technology
- provided 10% of the world's copper
- built Buxton's Crescent and Chatsworth Park
- copper-bottomed Nelson's Navy

Today, we are

- visited by well over 1,000 people every year
- providing a unique place to inspire young people
- a world-class education resource
- part of our national heritage

Benefits of membership

- you will be contributing to the long term future of the industry
- provided with priority bookings for group visits to the mine
- Have your logo promoted on our website and at the Centre
- Have the opportunity to use our logo on your website and stationery

Membership

Our annual membership fees are	
Corporate	£2,500
Institutional	£1,000
